

TOURS

City of Fresno Water Division

WATER DIVISION OPERATIONS

We invite you to tour the City of Fresno Water Division. The tours provide an overview of Water Division field and office operations. You may be surprised to learn that there are many daily challenges associated with providing water to our community. This is not only an opportunity to observe the action but to ask many questions of those actually performing water related activities for the City of Fresno.

SURFACE WATER TREATMENT FACILITY

A separate tour can be arranged for the Surface Water Treatment Facility. We welcome adults and school children.

SHADOW WATER CONSERVATION

Shadow Water Conservation representatives

To gain a better perspective of water waste issues, you may choose to ride-a-long with a Water Conservation representative.
